Product Description:

Used Han EV

The Han EV 2020 Long-Range Premium Edition is an all-electric luxury sedan from BYD, combining cutting-edge technology with high performance and elegant design. This model stands out not only for its impressive electric range but also for its sleek styling and advanced features, appealing to drivers who seek both sophistication and sustainability.

Powered by a high-capacity battery, the Han EV offers a remarkable range of over 600 kilometers (373 miles) on a single charge (based on NEDC standards), providing excellent freedom for long trips and daily commutes alike. With its dual-motor setup, the car delivers swift acceleration, reaching 0-100 km/h (0-62 mph) in just 3.9 seconds, giving it sports-car-like performance. The advanced battery management system ensures safety and long-term reliability, while fast-charging capability minimizes downtime.

Inside, the Han EV's Premium Edition offers a spacious and refined cabin with high-quality materials, such as leather upholstery and wood trim, creating a sense of luxury. A large rotating touchscreen takes center stage, integrating BYD's latest infotainment system with smart navigation, media controls, and over-the-air updates. The car also supports voice commands and smartphone connectivity for a seamless user experience.

In terms of safety, the Han EV is equipped with BYD's DiPilot intelligent driving system, featuring adaptive cruise control, lane-keeping assist, automatic emergency braking, and a surround-view camera system. These technologies ensure a secure and confident driving experience.

With its aerodynamic design, sharp LED headlights, and sporty alloy wheels, the Han EV boasts a commanding presence on the road. The Long-Range Premium Edition not only provides remarkable performance and comfort but also reflects a commitment to environmental responsibility, making it an excellent choice for those embracing the future of electric mobility.
